

**“I’M GOING
TO GET
SMARTER
THIS
SUMMER.”**

Summertime is a great time to enroll your child in Kumon, a different kind of year-round after-school math and reading program!

Kumon’s unique learning approach can help strengthen your child’s skills and study habits without disrupting your family’s summer plans. With only about 15 to 20 minutes of daily practice and half-hour visits to a nearby Kumon Center twice a week, your child could start the next school year as an even stronger, more confident student.

To learn more, contact your local Kumon Center today...and give your child a smarter summer.
